Professional Summary

Computer Science student specializing in mobile application development and machine learning with proven expertise in delivering AI-powered solutions achieving 96% accuracy using technologies like Kotlin, PyTorch, and Android development. Experienced in collaborative software development with strong foundation in data structures, algorithms, and system design, passionate about creating innovative solutions for real-world problems.

Education

IIIT Delhi — CGPA: 6.33 (Till 6th semester)
B.Tech (Computer Science and Engineering)
2022 - 2026 (Present)

RSBV Patparganj, Delhi-91 — Percentage: 84%
CBSE, Standard 12
2019 - 2020

RSBV School Block, Shakarpur, Delhi-91 — Percentage: 82%
CBSE, Standard 10
2017 - 2018

Relevant Coursework: Operating Systems, Database Management Systems (DBMS), Algorithm Design & Analysis, Mobile Computing, Advanced Programming

Technical Skills

Programming Languages:	Python, Java, C, C++, Kotlin
Mobile Development:	Android Studio, Jetpack Compose, CameraX, Android Navigation
Machine Learning:	PyTorch, PyTorch Mobile, ResNet-50, OpenAI SDK
Database & Systems:	DBMS, Operating Systems, Linux, Algorithm Design & Analysis
Development Tools:	VS Code, IntelliJ IDEA, Git, GitHub, JavaFX
Core Competencies:	Data Structures & Algorithms, System Design, Agile Development, Code Reviews

Projects

Plant Diseases Detection with Solution — Individual Project
Jan 2024 - May 2025
Guide: Arani Bhattacharya
Developed AI-powered mobile application achieving 96% accuracy in plant disease detection across 38 classes using ResNet-50. Implemented offline inference with PyTorch Mobile and integrated local LLMs for advisory system. Built Android UI with Jetpack Compose and CameraX.
Tech Stack: Kotlin, Android Studio, PyTorch Mobile, OpenAI SDK.
GitHub

Stick Hero Game — Team of 2
Nov 2023 – Dec 2023
Guide: Raghava Mutharaju
Developed interactive Stick Hero game using JavaFX with smooth animations and responsive controls. Implemented game mechanics including physics simulation, collision detection, and applied object-oriented design patterns with MVC architecture.
GitHub

Zoo Management System Individual Project
Guide: Raghava Mutharaju Oct 2023 – Nov 2023
Designed comprehensive zoo management system in Java implementing advanced OOP concepts. Developed modules for animal management, visitor tracking, and staff scheduling with database integration using Factory, Observer, and Strategy patterns.
GitHub

Experience

Mobile Application Developer Jan 2024 - May 2025
Plant Disease Detection Project - IIIT Delhi
Led development of AI-powered mobile application achieving 96% accuracy in plant disease detection using ResNet-50 and PyTorch Mobile. Integrated local LLMs (Llama-2/phi-2) for intelligent advisory system and built responsive Android UI with Jetpack Compose.

Software Development Team Member Aug 2022 - Present
Multiple Course Projects - IIIT Delhi
Collaborated in cross-functional teams of 2-4 members on software development projects using agile methodologies and version control. Contributed to full-stack development using Java, Python, and mobile technologies with focus on code quality and delivered 5+ projects on time.

Achievements & Activities

- Successfully delivered 5+ collaborative software projects with teams of 2-4 members using agile methodologies
- Achieved 96% accuracy in machine learning model implementation for real-world agricultural application

Interests and Hobbies

- **Sports:** Playing Table Tennis and Cricket - helps develop strategic thinking and team coordination
- **Geopolitics:** Following international affairs and analyzing global technological trends
- **Technology:** Exploring emerging technologies in AI/ML, mobile development, and open-source contributions

Declaration: The above information is correct to the best of my knowledge.
