Education

IIIT-Delhi **Delhi, India**
B.Tech Computer Science and Engineering *2022 - 2026 (Present)*
CGPA: 6.33 (till 6th Semester)

RSBV Patparganj, Delhi-91 **Delhi, India**
12th Grade - CBSE *2019 - 2020*
Percentage: 84%

RSBV School Block, Shakarpur, Delhi-91 **Delhi, India**
10th Grade - CBSE *2017 - 2018*
Percentage: 82%

Skills

Expertise Area: Data Structures and Algorithms (DSA)
Programming Languages: Python, Java, C, C++, Kotlin
Tools and Technologies: Linux, JavaFX, Android Studio, Vs Code, IntelliJ IDEA
Technical Electives: Operating System, Database Management Systems (DBMS), Algorithm Design Analysis (ADA), Mobile Computing

Projects

Plant Diseases Detection with Solution | *Mobile Computing Project* **2024 - 2025**

- Developed mobile application for plant disease detection using ResNet-50 model with 96% accuracy on 38 disease classes
- Implemented offline AI capabilities using PyTorch Mobile for real-time image classification without internet dependency
- Built LLM-based advisory system with local offline models (Llama-2/phi-2) for treatment suggestions
- Created complete Android app using Jetpack Compose UI, CameraX API, and Navigation Component
- Features: Camera/Gallery integration, dynamic confidence thresholds, theme support, message persistence
- **Tech Stack:** Kotlin, Android Studio, PyTorch Mobile, Jetpack Compose, CameraX, OpenAI SDK
- **GitHub:** Github

Stick Hero Game | *Guide: Raghava Mutharaju* **November 2023 - December 2023**

- Team Size: 2 members
- Developed stick hero game using JavaFX in Java language
- Implemented game mechanics and user interface for an engaging gaming experience
- **GitHub:** Github

Zoo Management System | *Guide: Raghava Mutharaju* **October 2023 - November 2023**

- Zoo management system developed as part of Advanced Programming course assignment
- Implemented comprehensive system for managing zoo operations and data
- **GitHub:** Github

Simple as well as Smart Loader | *Guide: Vivek Kumar* **april 2023 - june 2023**

- Team Size: 2 members
- Implemented both simple loader and smart loader functionalities in C programming language
- Developed efficient loading mechanisms for system-level programming
- **GitHub:** Github

Interests and Hobbies

- Playing table tennis and cricket
- Geopolitics

Declaration

The above information is correct to the best of my knowledge.
